Solutions to your challenges

- Healthy alternatives
- Improved nutritional benefits
- Better palatability
- Naturally sourced
- Ease of use

BETTER TASTE & DIGESTIVE HEALTH FOR WELL, HAPPY PETS

Naturally sourced, bio-based ingredients bring out flavors & help eliminate pet upset

DuPont helps pet food companies take advantage of the proven benefits of such naturally occurring substances as D-Xylose sugar, probiotic cultures and enzymes, which work together to aid digestion, improve intestinal function and improve flavor profiles. Our specialty solutions include D-Xylose sugar for building unique flavor notes and improving palatability and enzymes, which may be used for the hydrolyzation of meats, flavor development, process control and digestive support. Our probiotic cultures can improve intestinal function and support immunity.

The notable benefits of Specialty and the unique advantages of Stability and Structure represent three very powerful reasons for you to rely on DuPont.

About DuPont™ Danisco®
DuPont™ Danisco® is the brand for a range of products that help provide enhanced bioprotection, an improved nutritional profile, and better taste and texture with greater cost efficiency and lower environmental impact, meeting the needs of manufacturers of food and beverages, dietary supplements and pet food. Through the work of the global network of food scientists and technologists in DuPont, the Danisco® range is supported by a uniquely broad spectrum of know-how across applications and processing.
